Lee District Annexation. The City Council and Chamber of Com-nerce have both decided that it is de-irable and advisable to ask the General seembly at this session to extend the cor-orate limits of Richmond.

Our own opinion has been expressed to the effect that it would be better to postne this application until we could go efore the two houses at the Capitol with the unanimous approval of our own peo-ple and when we would be prepared to ed for twenty-five years to come. We eared that with the county people nearly unit against us, and our own folks somewhat divided upon the question, our petition would be denied and annexation uld receive a set-back from which it night not recover for many years.

That our doubts were shared by some

other men may be seen from the news-paper accounts of the proceedings of the Common Council and Board of Aldermen. where the subject was elaborately disussed, and where, also, the weighty opinion of the City Engineer, when asked, was cast against the present scheme.

But the city has taken its stand, and it

will not be becoming in us to persist that it is inexpedient to appeal to the Legisla-ture at this session. It is not designed to ask now for the in-

corporation of Lee district as an entirety; but only of that portion of it nearest to the Les monument and bounded by Lombardy and Broad streets and the Boulevard and Grove avenue. The lonely and seemingly neglected condition of the Lzz monument cle surprises visitors. They cannot understand why the streets about it are unimproved and why handsome dwellings are not springing up around it. Few of them know that the monument is in the county of Henrico, not in the city of Richnd, and that the location of it there was not altogether popular with our citizens. To remove any impression that the monument is neglected, if not unappre-sisted, is of itself almost reason enough to induce us to ask and for the General esembly to grant the extension of our orporate limits in that direction.

The property-owners in the territory in question, or rather a majority of them. agree to be taxed, as the bill proposes, for their street improvements. They will pay for their own roadways, gutters, curbings, and sidewalks. Certainly nothing more could be expected of them; much less is required of our own people, and the popular disfavor with which the Dooley bill has been met indicates that it will be many years before our tax-payers will consent to ear such a burden as the property-owners of Lee Circle are willing to assume.

Mr. JOHN P. BRANCH stated in the recil Committee when this matter we un-der investigation that he had consulted competent counsel, and that he was advised that this special tax requirement would be pronounced unconstitutional. the State Constitution which decrees that all taxation "shall be equal and uniform." On the other hand, the City Attorney, who is very learned, particularly in the law concerning municipalities, stated that he had made a thorough examination of authorities, and was satisfied that a tax for improvements put upon sbutting property is not a tax within the meaning of

that provision of the Constitution.

The new territory will bring into the city taxable values amounting to \$800,000. which will be very largely increased when a new assessment is made. At the present low figures it will produce for us a revenue of over \$11,000 per annum, which is said to be more than enough to cover all the city's expenses that will be incurred by this anneration. Of course if the General Assembly looks with favor upon our petition we shall have to assume a share of

the county debt.

By far the weightiest objection that has been urged against the annexation of this territory is that it will eventually necessitate the city charging herself with the cost of constructing an outlet for the sowage of the houses that may be erected west of the monument. The City Engi-neer states that it cannot be discharged into the Broad- or Franklin-street sewer, but will have to follow the depression of the water-shed to Bacon's Quarter branch. The right of way will have to be obtained through much priwate property in the county. So, also, the water-mains to supply the district with water will be very expensive, and will have to be run down the Boulevard to Broad street, and thence to the city. This, however, will be a necessity anyway in the near future. We suppose that un-til Lee Circle is well built up temporary arrangements can be made to supply it with water and to carry off its sewage. At any rate, the City Council has considered both of these objections, and has not found them insurmountable obstacles to

merce, which has been corcurred in by the majority of the members of both doubt find general acceptance as expressive of the wishes of the city of Richmond. and now it remains for the General As-sembly to determine if our application for an extension of the corporate limits is reasonable and proper and should be grant-

Female Physicians for the Asylums. The Senate will to-day consider the bill passed by the House requiring the appointment of a female physician as one of the assistants of each of the superinandents of asylums for the insane in this state. The bill is, however, heavily handiby the adverse report of the com-to whom it was referred.

thee to whom it was referred.
The committee's opinion, as we underand it, is that the present law authorizes Boards of Visitors of the asylums to point female physicians if they think at it is desirable to do so. The probability is that the boards have never thought so about it. It is true that they may midder the subject more carefully in the turn, but if the people wish it they have tright to say to the boards that the dead argument must be made now. If they aloft as it is; if the Korara bill is a detail refer as it is; if the Korara bill in the detail refer as it is; if the korara bill in the detail refer as it is; if the korara bill in the service of the

"This is not the time to temporize, but to force the fighting. An early Democratic State convention, a unanimous delegation from New York, and the thirty-six electoral votes of the Empire State for the candidates to be nominated in Chicago—that is what the situation demands and the Democrats of the country expect."

The State Committee carned out this programme. The delegates will be instructed to vote as a unit in the Democratic National Convention. They themselves will decide whether to vote for Hill or not; but we take it for granted that the gallant Democracy of the Empire State will not turn their backs upon the man who has made the election of a Democratic President of the United States almost a certainty. Mr. Cleveland's Position-The New York World started the story that Mr. CLEVELAND was considering the expediency and propriety of withdrawing from the presidential race, and that paper persists in the assertion that the story is true as it appeared in the World's columns—namely, that "he has thought and talked, and is thinking yet, of announcing his withdrawal." Well, nobody need deny the truth of the story as thus told. The same remark might probably be truthfully made of HILL, GRAY, GORMAN, and the rest of the aspirants to the presi dency. Mr. CLEVELAND has had his eye upon the Executive chair ever since he re-tired from it, and it is not at all likely that he has at this late day decided not to look in that direction at all.

A Richmond lawyer writes to us taking the same view of the decision in Miller vs. The Commonwealth which was taken by the Lynchburg lawyer whose letter we published yesterday.

RICHMOND TERMINAL.

Louisville to Chleago.

A Chicago special of January 26th, to the New York Herald, says: The Louisville, New Albany and Chicago is rapidly fitting itself to become part of the leading North and South railread systems from Chicago. It is almost an open secret that it will become the northern outlet for the Richmond Terminal system and a basis of rates established which, it is predicted, will largely counterbalance New York's prosent advantage to southern points. Owing to the non-extension agreement between the lines north and south of the Ohio. President Thomas is keeping the exact plans secret. Regarding the improvements General-Manager McDowell said to-day:

"We have sold \$3,200,000 of stock for cash and will put every cent of it into improvement. We have bought and are now laving 5,000 tons of sixty-seven pound steel rails and 250,000 new cross-ties. All wooden bridges will be replaced with iron and a hundred miles of track will be gravel ballasted. We have also bought six new heavy freight engines, six hundred freightcars, fifteen first-class passenger coaches and two diners. All passonger-trucks will be lengthened so as to allow fast speed for passenger-trains, and the Louisville and Chicago Terminals will be just doubled in capacity. Our earnings this month will show a handsome increase, although January of last year was a phenomenal month for earnings for us. Our earnings last year were just twice what they were eight years ago."

THE BAKER TRIAL POSTPONED. An Important Witness for the Defence Ill with the Grip.

Special telegram to the Dispatch. [Special telegram to the Dispatch.]
ARINGDON, VA., January 27.—When court
met this morning the defence in the Baker
trial asked that the case be continued till
the next term on account of the sickness
of one of their most important witnesses,
Mrs. Anna Diggs, a niece of Dr. Baker.
Isaac Baker, the father of the absent witness, was examined as to his daughter's
condition. He stated that she was unable
to appear here at this term; that she has
consumption, and is at present confined
to her bed with grip.

THE OUTLOOK. The prosecution argued that there was no more probability of the witness being able to appear at the next term than at this. These arguments of the prosecution were replied to very forcibly by Hon. C. F. Trigg and Colonel James L. White. It was decided to send out a physician to ascertain the condition of Mrs. Diggs. The case was continued till to-morrow morning. There is no probability that the trial will go on this week.

DR. W. S. HORSEY IS NOT DEAD. The Report Contradicted-He is Danger ously Ill, But May Yet Recover.

(Correspondence of the Richmond Dispatch.)
ONANCOCK, January 26.—The report which reached here Saturday of the death of Dr. William S. Horsey, an old and prominent citizen of northern Accomac, has proved to be untrue. A telegram was received here from Oak Hall announcing the Doctor's death, but the bad news was contradicted by letters received here yesterday from the members of the Doctor's household. He is still very dangerously ill, but it is hoped he may now recover and be able to read his own obituary in the papers, as many others have done before. pondence of the Richmond Dispatch.

New York is determined not to be behind-hand in preparing for the next presidential election. The State convention of February 22d will elect four delegates at large to the Democratic National Convention. The Sun grows eloquent over the prospect. It says:

In the case of William Lindsey, who was tried in the Hustings Court for a violation of the city ordinances, on an appeal from conviction in the Mavor's Court, Judge Bernard to-day overruled the objection made by counsel for the accused as to the iurisdiction of the Mayor and a motion for discharge. The case was tried by a jury, which discharged the prisoner. This is one of several cases which have grown out of the recent decision of the Court of Appeals. Lindsey had to be tried three times before his case was finally adjudicated, and the costs to the Commonwealth were by no means inconsiderable.
